Non-Metallic Cable Connector for 1/2" Threaded Openings

Arlington's new plastic connector is perfect for installing NM cable in a threaded opening. Use it when you are installing a garbage disposal, for example.

It can be used where a liquid or weatherproof application is not required.

Catalog Number	UPC/DEI/NAED Mfg. #018997	Description	Unit Pkg	Std Pkg
NM840T	54844	NM cable connector for 1/2" threaded opening	100	400

Non-Metallic Cable Connector

Perfect for installing a garbage disposal

NM840T is easy to install!

1. Screw connector into the opening.
2. Install NM cable. Then place the wedge in the slot, and press it in with pliers to secure.
3. NM840T delivers a secure, positive grip – **No pullout!**
